Dear Mr. Colter:

The Department has reviewed the "Remedial Decision Document For Installation Restoration Site 10" submitted by your office, dated May 21, 1997, regarding the proposed free product recovery and the proposed remedial activities for the above referenced facility.

The Department concurs with the proposed groundwater table depression and vacuum-enhanced LNAPL recovery system to reduce the contaminant source and remediate the groundwater. Please submit copies of remedial reports to the Department upon completion.

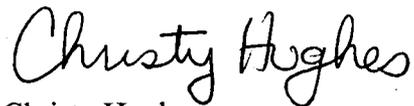

Mr. James Colter
