Re: Final Report IR Site 11 – March 2004  
Naval Air Station Joint Reserve Basin  
Willow Grove  
Horsham Township  
Montgomery County

Dear Mr. Boyle:

The Pennsylvania Department of Environmental Protection (Department) has received and reviewed the Act 2 Final Report for Soil Sampling Efforts at Installation Restoration Program Site 11. The Report is dated March 2004 and was prepared by EA Engineering. The Department agrees that no exceedances of the Department's Statewide Health Standards exist in either surface or subsurface soils at Site 11. The Department recognizes that the elevated concentrations of Iron and Magnesium in groundwater do exceed the Secondary Maximum Contaminant Levels, however, these substances do not appear related to any past release at Site 11.

The Department concurs that no further remedial actions are needed at Site 11.

Sincerely,

April M. Flipse  
Project Officer  
Environmental Cleanup
