Re: Five Year Review  
Naval Weapons Station Yorktown  
Yorktown, Virginia

Dear Captain Bolivar:

Thank you for submitting the U.S. Navy's (Navy's) report, entitled "Five-Year Review Report, Naval Weapons Station Yorktown, Yorktown, Virginia", dated November, 2007 to the U.S. Environmental Protection Agency (EPA) for review and concurrence. EPA has reviewed this five-year review report and has compared it to EPA's June 2001 guidance document, *Comprehensive Five-Year Review Guidance* (OSWER No. 9355.7-03B-P, EPA 540-R-01-007). EPA has determined that the five-year review report meets the intent of EPA's five-year review guidance. Furthermore, EPA concurs with the Navy's determination that the remedies for soil at the Naval Weapons Station Yorktown Sites 1, 3, 6, 7, 11, 12, 16, 17, and 19 are protective of human health and the environment.

The Navy prepared this report to address the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) Section 121 (c) five-year review requirements. The requirement for this five-year review at the Naval Weapons Station Yorktown was triggered by the Site 12 Record of Decision, which was signed on April 16, 1997. A previous five-year review report was completed and signed by the Navy on November 20, 2002. The next five-year review will be due five years from the date of this concurrence letter.

If you have any questions, please contact Robert Thomson at (215) 814-3357.

Sincerely,

  
James J. Burke, Director  
Hazardous Site Cleanup Division

Five-Year review  
EPA concurren...

Bonnie,

Attached is EPA's concurrence letter with our 2nd 5-yr review at WPNSTA. The 5-yr review report was written under contract N62470-02-D-3052, CTO 0160, and finalized in November '07.

Thanks!

Linda
