RE: Technical Memorandum for No Further Action, Potential Source
of Contamination 41, Yellow Water Weapons Area Mobile Target
Range, Naval Air Station Cecil Field, Florida.

Dear Mr. Davidson:

I have completed the technical review of the Technical
Memorandum Sampling and Analysis Report, dated August 2000
(received August 28, 2000) submitted for the above-referenced
building. Based on the results of the arsenic-contaminated soil
excavation, FDEP concurs with the recommendation of no further
action.

FDEP's concurrence is predicated on the information provided
by the SOUTHNAVFACENGCOM. Therefore, any new information
contradicting the basis for this concurrence, may require further
investigation or remedial actions.

If you have any concerns regarding this letter, please
contact me at (850) 921-9991.

Sincerely,

Michael J. Deliz, P.G.
Remedial Project Manager
