RE: Base Realignment and Closure Grey Site (Category 7) Sampling
and Analyses Report, Facility 312, Corrosion Control Hangar,
Naval Air Station Cecil Field, Florida.

Dear Mr. Davidson:

I have completed the technical review of the Sampling and
Analyses Report, dated June 1996 (received June 11, 1996)
submitted for the above-referenced facility. FDEP concurs with
the recommendation of no further action and that this site should
be reclassified to the transferable color of light green
(Category 3).

FDEP's concurrence is predicated on the information provided
by the SOUTHNAVCOM. Therefore, any new information
contradicting the basis for this concurrence, may require further
investigation or remedial actions.

If you have any concerns regarding this letter, please
contact me at (904) 921-9991.

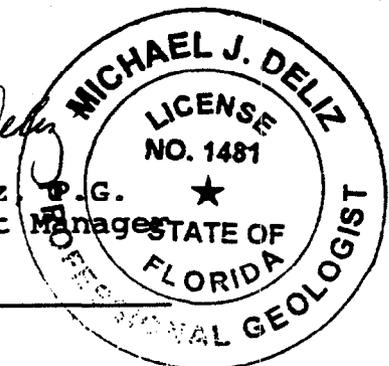

Sincerely,

Michael J. Deliz
