RE: Contamination Assessment Report Addendum 2/No Further Action  
Proposal, Sal Taylor Creek Bank Sites, Naval Air Station  
Cecil Field Florida.

Dear Mr. Kizer:

I have reviewed the Contamination Assessment Report (CAR)  
Addendum 2/No Further action Proposal dated July 1997 (received  
July 28, 1997), submitted for this site. Based upon my review  
and comments, the enclosed Site Rehabilitation Completion Order  
was signed by Mr. John M. Ruddell, Director of the Division of  
Waste Management. The No Further Action Proposal was  
incorporated by reference in the Site Rehabilitation Completion  
Order. It should be noted, that this does not close out the JP-5  
Spill Site that was part of the original CAR Addendum and that  
remedial action is still expected in that area.

If I can be of any further assistance with this matter,  
please contact me at (904) 921-9991.

Sincerely,

RE: Contamination Assessment Report Addendum 2/No Further  
Action Proposal, Sal Taylor Creek Bank Sites, Naval Air  
Station Cecil Field Florida.

Dear Mr. Kizer:

The Bureau of Waste Cleanup has reviewed the Contamination Assessment Report (CAR) Addendum No. 2 and No Further Action Proposal (NFAP) dated July 1997 (received July 27, 1997), submitted for this site. Documentation submitted with the NFAP confirms that criteria set forth in Rule 62-770.600(5), Florida Administrative Code (F.A.C.), have been met. The NFAP is hereby incorporated by reference in this Order. Therefore, you are released from any further obligation to conduct site rehabilitation at the site, except as set forth below.

If a subsequent discharge of petroleum or petroleum product occurs at the site, the Department may require site rehabilitation in order to reduce contaminant concentrations to the levels approved through review of the NFAP or otherwise allowed by Chapter 62-770, F.A.C.

Additionally, you are required to properly abandon all monitoring wells except compliance wells required by Chapter 62-761, F.A.C., for release detection and wells needed for the Facility 313 and or other assessments. The wells must be abandoned in accordance with the requirements of Rule 62-532.500(4), F.A.C.
