**RE: Naval Air Station Cecil Field
Building G-859
Cecil Field, Florida
FDEP Facility #168507293**

Dear Mr. Crews:

The Air and Water Quality Division (AWQD) has reviewed the Tank Closure Assessment (TCA) undated (received April 3, 1998) for the above referenced facility. The AWQD has determined that the Florida Department of Environmental Protection (FDEP) Tank Closure Assessment requirements have been satisfied. The TCA indicates correct procedures were followed during the closure activity. No remedial work is required for this site at this time.

This letter does not constitute approval of the TCA as a Contamination Assessment or "No Further Action" (NFA) by the FDEP or AWQD. The FDEP Facility Number for this site is 168507293. Please use this number on all future correspondence with AWQD.

Any questions regarding this review should be directed to Allene McIntosh or me at (904) 630-3404

Very truly yours,
