Naval Facilities Engineering Command  
2155 Eagle Drive  
North Charleston, South Carolina 29418**

**Scott Glass, Code 18B12, BRAC Environmental Coordinator**

**January 1999**

**Revision 0.0**

**Sampling and Analysis Outline Addendum  
Base Realignment and Closure  
Facility 5091**

This addendum to the Sampling and Analysis Outline (SAO) for Facility 5091 documents the rationale and the decision to reclassify the facility from 2/Blue to 1/White in accordance with the guidelines included in the September 1996 Base Realignment and Closure (BRAC) cleanup plan. The environmental status of Facility 5091 and surrounding facilities was reviewed during the BRAC Cleanup Team meeting on December 16, 1998.

Facility 5091 is an aluminum double-wide trailer and can be relocated as necessary. The facility is presently located at the corner of 1st Street and D Avenue and is used as classrooms for the Naval Air Reserves. No environmental concerns have been identified for Facility 5091.

Based on the information contained in the EBS report, the Sampling Analysis Outline, and the evaluation presented above, the Naval Air Station Cecil Field BRAC Cleanup Team concurred with the recommendation to revise the color code for Facility 5091 from blue to white.
