SUBJECT: Site Management Plan (SMP) for Fiscal Year 2000

Dear Mr. Glass:

The U.S. Environmental Protection Agency (EPA) has reviewed the SMP for fiscal year (FY) 2000. This letter provides concurrence of the FY 2000 SMP, which provides schedule deadlines and work priorities. The SMP meets the requirements set forth in the Federal facilities Agreement (FFA) between the United States Environmental Protection Agency, Florida Department of Environmental Regulation for the State of Florida and the United States Department of the Navy for the United States Naval Air Station Cecil Field, Jacksonville, Florida dated 23 October 1990.

As was agreed during the October 21, 1999, BRAC Cleanup Team meeting, in the future the quarterly status reports do not have to contain the project schedule timelines. Quarterly reports should only report significant progress made during the previous quarter, projections for the coming quarters, and changes in the schedule for primary documents.

Per the FFA, any changes or extensions to this schedule must be submitted in writing and approved by both the State of Florida and the EPA. If you have any questions, please contact me at 404/562-8539.

Sincerely,

A handwritten signature in black ink that reads "Deborah A. Vaughn-Wright". The signature is written in a cursive style.

Deborah A. Vaughn-Wright  
Remedial Project Manager
