RE: Action Memorandum for Potential Source of Contamination  
(PSC) 32, Area of Interest 32, Main Base Hazardous Materials  
Warehouse/Storage Area, Naval Air Station Cecil Field,  
Florida.

Dear Mr. Davidson:

I have completed the technical review of the Action  
Memorandum, dated May 2000 (received May 30, 2000) submitted for  
the above-referenced PSC. FDEP concurs that a removal action is  
necessary to prevent migration of PAH-contaminated soils above  
industrial Soil Cleanup Target Levels. In addition, a Land Use  
Control Implementation Plan should now be written for this site.

If you have any concerns regarding this letter, please  
contact me at (850) 921-9991.

Sincerely,

Michael J. Deliz, P.G.  
Remedial Project Manager
