RE: Final Action Memorandum for Site 21, Naval Air Station Cecil
Field, Florida.

Dear Mr. Davidson:

I have completed the technical review of the Final Action Memorandum for Site 21, dated April 3, 2001 (received April 4, 2001), prepared and submitted by Tetra Tech NUS, Inc. FDEP concurs that a removal action is necessary to prevent migration of contaminated soils and groundwater and to prevent exposure to soils contaminated with arsenic, TRPH and pesticides above industrial Soil Cleanup Target Levels. As the removal action at this site is to remediate the site for future industrial land use, a Land Use Control Implementation Plan (LUCIP) will be required for this site.

If you have any concerns regarding this letter, please contact me at (850) 488-3693.

Sincerely,

David E. Grabka
Remedial Project Manager
