LETTER REGARDING FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION  
COMMENTS ON SOURCE REMOVAL REPORT FOR POTENTIAL SOURCE OF  
CONTAMINATION 21 NAS CECIL FIELD FL  
11/15/2001  
FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION

November 15, 2001  
OFFICIAL CORRESPONDENCE

Commanding Officer  
attn: Mr. Mark Davidson, Code ES339  
Southern Division  
Naval Facilities Engineering Command  
Post Office Box 190010  
North Charleston, SC 29419-9010

Dear Mr. Davidson:

I have completed my review of the Source Removal Report, Excavation of Arsenic, Pesticide and TRPH Contaminated Soil at Potential Source of Contamination 21 (PSC 21), Golf Course Maintenance Area (Facilities 238, 370, 371, 397 and 874), Naval Air Station Cecil Field, dated August 2001 (received August 31, 2001), prepared and submitted by CH2M Hill Constructors, Inc. I have a couple of comments that should be addressed before the report can be approved as final:

- (1) PSC 21 has been renamed Site 21 due to groundwater contamination detected at the site. It should be made clear somewhere in the report that PSC 21 was the former designation for Site 21. This should prevent any confusion that PSC 21 and Site 21 are separate sites.
- (2) Please submit a signed Certificate of Completion page.

This electronic message is being sent in lieu of regular mail. If you have any questions concerning this review, please contact me at (850)921-9991.

Sincerely,

David P. Grabka  
Remedial Project Manager
