RE: Final Feasibility Study Report for Operable Unit 10, Site 21 -
Golf Course Maintenance Area, Naval Air Station Cecil Field,
Jacksonville, Florida.

Dear Mr. Davidson:

The Department has completed its review of the Final Feasibility Study Report for Operable Unit 10, Site 21 - Golf Course Maintenance Area, Naval Air Station Cecil Field, dated September 2002 (received October 2, 2002), prepared and submitted by Tetra Tech NUS, Inc. The document is suitable for its intent and is approved as final. I have attached a memorandum from Greg Brown, P.E., certifying that it also meets his approval.

If you have any concerns regarding this letter, please contact me at (850) 245-8997.

Sincerely,

David P. Grabka, P.G.
Remedial Project Manager

TO: David Grabka, P.G., Remedial Project Manager,
Technical Review Section

THROUGH: Tim Bahr, P.G., Supervisor, Technical Review Section *TJB*

FROM: Gregory M. Brown, P.E., Professional Engineer II,
Technical Review Section

DATE: December 13, 2002

SUBJECT: Final Feasibility Study Report for Operable Unit 10,
Site 21 - Golf Course Maintenance area, Former Naval
Air Station Cecil Field, Jacksonville, Duval County,
Florida.

I reviewed the Final Feasibility Study dated September 2002 (received October 4, 2002). The Final Feasibility Study is adequate for its intent.

In my professional judgment, the engineering features described in the engineering document, Feasibility Study Report for Operable Unit 10, Site 21, Golf Course Maintenance Area, Naval Air Station Cecil Field, Florida, submitted on behalf of the U.S. Navy by Tetra Tech, Inc., Authorization No. 7988, provide reasonable assurance of reducing exposure to applicable pollutants in groundwater below quantities which may be potentially harmful or injurious to human health or welfare and animal or plant life in accordance with state criteria described in Chapter 376, F.S. Mr. Mark P. Speranza, Florida Professional Engineer No. 50304, is the engineer of record for this engineering document.

I have not evaluated and do not certify aspects of this engineering document that are outside the limits of my review responsibilities and outside my area of technical expertise (including but not limited to electrical, mechanical, and structural features). I personally completed this review.

Gregory M. Brown
