RE: Second Quarter 2004 and Third Quarter 2004, Operation and Maintenance Status Reports, April 1, 2004 - June 30, 2004 and July 1, 2004 - September 30, 2004, Nutrient Injection System, Building 9, Naval Air Station Cecil Field, Jacksonville, Florida

Dear Mr. Magwood:

I have completed my review of the Second Quarter 2004 and Third Quarter 2004, Operation and Maintenance Status Reports, April 1, 2004 - June 30, 2004 and July 1, 2004 - September 30, 2004, Nutrient Injection System, Building 9, Former Tanks 9L1 and 9L2, Naval Air Station Cecil Field, dated October 2004 and December 2004 (received October 20, 2004 and January 19, 2005), prepared and submitted by Terraine, Inc. The reports acceptably document the operation and maintenance of the nutrient injection system and associated groundwater monitoring. However, I did find some slight errors in the Second and Third Quarter 2004 reports. In Section 3.3 of the Second Quarter 2004 report and in Section 3.2.3 of the Third Quarter 2004 report, the quantitative unit mg/L should be  $\mu\text{g/L}$ .

If I can be of any further assistance with this matter, please contact me at (850) 245-8997.

Sincerely,

David P. Grabka, P.G.  
Remedial Project Manager
