RE: Groundwater Monitoring Reports, 1st Semi-Annual, 2nd Year (October 2009) and 2nd Semi-Annual, 2nd year (April 2010), Building 82, Tank G82, Naval Air Station Cecil Field, Jacksonville, Florida

Dear Mr. Art Sanford:

I have completed my review of the Groundwater Monitoring Reports, 1st Semi-Annual, 2nd Year (October 2009) and 2nd Semi-Annual, 2nd year (April 2010), Building 82, Tank G82, Naval Air Station Cecil Field, dated January 8, 2010 and August 5, 2010, respectively (received January 11, 2010 and August 6, 2010, respectively), prepared and submitted by Tetra Tech NUS, Inc. The reports are suitable for their intent and accepted as final. I did find an error with the water level elevations of October 21, 2009 in Table 1 and depicted on Figure 2 in the 1st Semi-Annual, 2nd Year Groundwater Monitoring Report. The calculations for that date are incorrect and the incorrect water levels were used to make the flow map in Figure 2.

If you have any concerns regarding this letter, please contact me at (850) 245-8997.

Sincerely,

David P. Grabka, P.G.
