RE: Groundwater Monitoring Report, 3rd Quarter, 3rd Year (October 2008), Building 81, Tanks 81 A, B and C, Naval Air Station Cecil Field, Jacksonville, Florida.

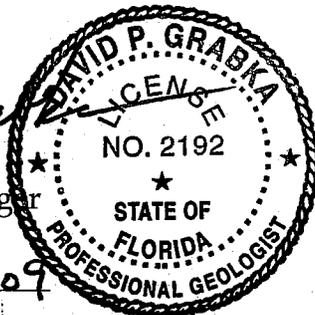

Dear Mr. Sanford:

I have completed my review of the Groundwater Monitoring Report, 3rd Quarter, 3rd Year (October 2008), Building 81, Tanks 81 A, B and C, (4th Quarter, 1st Year since revised NAMP Order), Naval Air Station Cecil Field, dated December 15, 2008 (received December 22, 2008), prepared and submitted by Tetra Tech NUS, Inc. The report is adequate for their intent and approved as final. I agree to the recommendation that the monitoring program be modified to consist only of monitoring wells CEF-081-04I, CEF-081-19I, CEF-081-22I and a well (or wells) to be installed in the intermediate zone downgradient of CEF-081-22I. Groundwater analysis shall continue to be only for cumene (isopropylbenzene) and the sampling frequency shall remain quarterly for the time being.

If you have any concerns regarding this letter, please contact me at (850) 245-8997.

Sincerely,

David P. Grabka, P.G.
Remedial Project Manager
