RE: Draft Source Removal Report, UST Closure at Building 271,
Tank Numbers 271R, 271UL and 271SUL, Naval Air Station Cecil
Field, Jacksonville, Florida

Dear Mr. Ugolini:

I have completed the review of the Draft Source Removal Report, UST Closure at Building 271, Tank Numbers 271R, 271UL and 271SUL, Naval Air Station Cecil Field, dated March 2001 (received March 23, 2001), prepared and submitted by CH2M Hill Constructors, Inc. A total of 511.54 tons of soil were excavated and properly disposed. The tank closures were conducted in accordance with Chapter 62-761, Florida Administrative Code. As contaminated soil and groundwater were detected during closure assessment activities, I concur that Site Assessment activities in accordance with Chapter 62-770, F.A.C. are required. Please submit signature pages so the Source Removal Report can be finalized.

If I can be of any further assistance with this matter, please contact me at (850) 488-3693.

Sincerely,

David P. Grabka
Remedial Project Manager
