RE: Building 367, Tank 367, Semi-Annual/Annual Groundwater
Monitoring Report, Naval Air Station Cecil Field,
Florida.

Dear Mr. Ugolini:

I have completed the technical review of the Annual Groundwater Monitoring Report, dated June 2000 (received June 5, 2000) submitted for the above-referenced site. FDEP does not concur with the proposed recommendation of No Further Action for this site. Monitoring well CEF 367-2S should be found and resampled for USEPA Methods 602 and 8310. Based on this data, a recommendation should be submitted for future actions at this site.

If you have any concerns regarding this letter, please contact me at (850) 921-9991.

Sincerely,

Michael J. Deliz
