RE: Confirmation Sampling Report, Tank G543, Building 543,
Naval Air Station Cecil Field, Florida.

Dear Mr. Kizer:

I have completed the technical review of the Confirmation Sampling Report, dated November 1997 (received December 4, 1997), 1997) submitted for the above-referenced building. FDEP concurs with the recommendation of no further action and that a Site Assessment is not warranted under Chapters 62-770, Florida Administrative Code. This letter supersedes the letter dated May 16, 1998, that erroneously concurred with the recommendation of doing a Site Assessment

FDEP's concurrence is predicated on the information provided by the SOUTHNAVFACENGCOM. Therefore, any new information contradicting the basis for this concurrence, may require further investigation or remedial actions.

If you have any concerns regarding this letter, please contact me at (904) 921-9991.

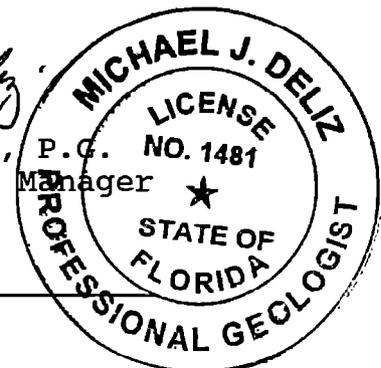

Sincerely,

Michael J. Deliz
