Dear Mr. Davidson:

I have completed my review of the Draft Groundwater Sampling Work Plan for Building 605, Naval Air Station Cecil Field, dated January 23, 2002 (received January 24, 2002), prepared and submitted by Tetra Tech NUS, Inc. The draft work plan specifies that sampling will be conducted only at the source well, CEF-605-3S, in February 2002. The draft work plan is acceptable as written and can be finalized.

This electronic message is being sent in lieu of regular mail. If you have any questions concerning this review, please contact me at (850)921-9991.

Sincerely,
