Team,

Just a few comments on the draft report.

1. Page 1-1, 4th paragraph: Please explain educational uses. Does the reuse plan identify types of educational uses?
2. Page 3-30, Section 3.3, 2nd paragraph: Based on calculated post-excavation exposure concentration for arsenic no Preliminary Risk Assessment was conducted. Please provide the calculations used.
3. Throughout the ecological risk assessment it is never really clear if the evaluation was conducted pre or post excavation. Please include a statement as to how the removal affects the ecological risk assessment.

See you all next week,
Debbie Vaughn-Wright
