RE: Base Realignment and Closure Grey Site (Category 7) Sampling  
and Analyses Report, Building 852, Naval Air Station Cecil  
Field, Florida.

Dear Mr. Davidson:

I have completed the technical review of the Sampling and  
Analyses Report, dated June 1996 (received June 11, 1996)  
submitted for the above-referenced facility. FDEP concurs with  
the recommendation of no further action and that this site should  
be reclassified to the transferable color of light green  
(Category 3).

FDEP's concurrence is predicated on the information provided  
by the SOUTHDIVENCOM. Therefore, any new information  
contradicting the basis for this concurrence, may require further  
investigation or remedial actions.

If you have any concerns regarding this letter, please  
contact me at (904) 921-9991.

Sincerely,

*Michael J. Deliz*
