Subject: OU 2, Site 5, Field Task Modification Request Form for DPT study.  
NAS Cecil Field, Jacksonville, FL (FL5170022474)

Dear Mr. Sanford:

The U.S. Environmental Protection Agency (EPA) has received and reviewed the subject document dated February 20, 2012. The Field Task modification replaced the abbreviated work plan dated January 6, 2012. The Field Task Modification more closely follows the UFP-QAPP process and included the required worksheet changes. The EPA's comments follow:

- Worksheet #5: Recommend adding Stacin Martin
- Recommend adding Stacin Martin to Worksheet #7.
- Worksheet #11, Section 11.2.4: Is groundwater sampling automatically part of the DPT method? If not, please add Groundwater sampling as a methodology to be used.
- Worksheet #11, Section 11.2.5: Fourth paragraph on page 5 of 31. Refers the reader to Section 11.6. Suggest adding the reader should also see Worksheet #17.
- Worksheet #14, Section 14.1: Recommend adding collecting groundwater level measurements.
- Worksheet #14, page 11 of 31: Recommend adding collection of groundwater level measurements.
- Worksheet #14, Data Management, page 14 of 31: Is there a master Navy database for all sample data. If yes, then that information should be provided.
- Worksheet #17, page 19 of 31: Typographical error. "obtained" should be "obtained"
- Worksheet #20, page 21 of 31: Please provide a justification for no QA samples being collected.
- Figure 2: was the area to the west of site 5 investigated during the original RI? Recommend placing a DPT across the road.

Please contact me at 404-562-8539 or at [Vaughn-wright.debbie@epa.gov](mailto:Vaughn-wright.debbie@epa.gov) if you have any questions or concerns.

Sincerely,

Deborah  
Vaughn-Wright
