RE: Final Draft *Focused Feasibility Study, Operable Unit 7, Source Control Remedial Alternatives*, NAS Cecil Field

Dear Mr. Barnes:

We have reviewed the above referenced document and have no specific comments. Future remedial investigations should adequately determine the impacts at this site, and whether contaminants have migrated beyond the immediate area of the site.

We appreciate the opportunity to be involved in the investigation and remediation plans at NAS Cecil Field. Please keep us informed of all remedial investigations and activities at the station. Should you have any questions, please contact me at (904) 488-0784.

Sincerely,

John Mitchell
Project Manager
Office of Intergovernmental Programs
