Ms. Lisa M. Routhier, Project Manager  
ABB Environmental Services, Inc.  
1536 Kingsley Avenue  
Suite 127  
Orange Park, Florida 32073

Dear Ms. Routhier:

File No.: 162782132  
Applicant: USN/NAS Cecil Field  
Site 18 UXO Removal  
Tributary to Sal Taylor Creek

Consider this the consent sought to conduct the activities as proposed in your Department of Environmental Protection permit application number 162782132 dated September 28, 1995, showing the location in Section 24, Township 3 South, Range 24 East, Duval County. This consent is conditional upon your agreement to either comply with applicable Board of Trustees' rules, regulations, and policies in effect at such time as the Board of Trustees determines that your activity is located in whole or in part on state lands, or remove any structures within ninety (90) days from receipt of notice of such determination. This consent does not waive state ownership nor disclaim any title interest that the state may have in this waterbody.

This consent applies only to the functions of the Board of Trustees of the Internal Improvement Trust Fund of the State of Florida. Permits may be required by other divisions within the Department of Environmental Protection, other state agencies, the U.S. Army Corps of Engineers, water management districts, and local governmental agencies.

Sincerely,

Terry E. Wilkinson, Chief  
Bureau of Survey and Mapping  
Division of State Lands
