Contract Task Order 0066

Subject: Transmittal of Second Quarter Natural Attenuation
Groundwater Monitoring Report
Operable Unit 2, Site 5
Naval Air Station Cecil Field, Jacksonville, Florida

Dear Mr. Davidson:

Please find enclosed a copy of the subject deliverable. The purpose of this report is to present the results of the second quarter groundwater monitoring event conducted in November/December 1998. Based on the results of the 1st and 2nd quarter sampling events, it appears that natural attenuation is reducing the concentration of contaminants at a sufficient rate. Per the concurrence of the NAS Cecil Field Partnering Team on January 26, 1999, two additional wells will be installed and additional natural attenuation sampling will be conducted.

Copies of the subject deliverable have also been sent to the NAS Cecil Field Partnering Team as noted below.

If you have any questions, please call me at 412-921-8916 or Jason Brown 412-921-8401.

Sincerely,

A handwritten signature in cursive script that reads "Mark P. Speranza".
