Subject: Final Technical Memorandum for No Further Action, Potential Source of Contamination (PSC) 6, Lake Fretwell Rubble Disposal Area, NAS Cecil Field, Jacksonville, FL.

Dear Mr. Davidson:

The U.S. Environmental Protection Agency (EPA) has completed reviewing the subject document dated July 2000, and find it adequate for its intended purpose. This letter provides approval for no further action at the Lake Fretwell Rubble Disposal Area, PSC 6; and concurs with the revised BRAC designation of 4/Dark Green

EPA's review is based on available information presented by the Navy. If future information is made available which changes this decision, further investigation may be required.

Please contact me at 404/562-8539, if you have any questions.

Sincerely,

Deborah A. Vaughn-Wright
Remedial Project Manager
