RE: Final Proposed Plan for Operable Unit 9, Site 59, Naval Air Station Cecil Field,
Jacksonville, Florida

Dear Mrs. Nwokike:

I have completed my review of the Final Proposed Plan for Operable Unit 9, Site 59, Naval Air Station Cecil Field, dated May 2007 (received June 4, 2007). The Proposed Plan adequately describes the selected remedy of in-situ treatment of trichloroethylene hot spots and the petroleum plume, natural attenuation, groundwater monitoring and land use controls to prevent the use of groundwater. The document is suitable for its intent and the Department has no comments to make on it.

If you have any concerns regarding this letter, please contact me at (850) 245-8997.

Sincerely,

David P. Grabka, P.G.
Remedial Project Manager
