RE: Action Memorandum for Potential Source of Contamination  
Old Golf Course, Naval Air Station Cecil Field, Florida.

Dear Mr. Davidson:

I have completed the technical review of the Action Memorandum, dated June 2000 (received June 14, 2000) submitted for the above-referenced site. FDEP concurs that a removal action is necessary to prevent migration of arsenic-contaminated soils above industrial Soil Cleanup Target Levels. In addition, a Land Use Control Implementation Plan should now be written for this site.

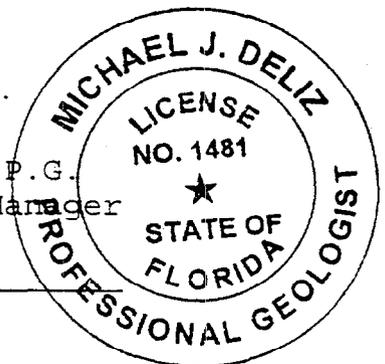

If you have any concerns regarding this letter, please contact me at (850) 921-9991.

Sincerely,

Michael J. Deliz, P.G.  
Remedial Project Manager
