Attn: Mark Davidson, Code ES339  
P.O. Box 190010  
North Charleston, South Carolina 29419-9010

Subject: Technical Memorandum for No Further Action, Old Golf Course, Main Base Area  
3, Naval Air Station Cecil Field, Jacksonville, Florida

Dear Mr. Davidson:

The U.S. Environmental Protection Agency has completed reviewing the subject document dated August 2001, and find it acceptable for its intended purpose. The Navy has completed the removal action per the Action Memorandum dated July 25, 2000. Contaminated soils have been removed to residential levels therefore no further action is required at this site.

EPA's determination is based on data provided by the Navy. If future investigations find contamination, these findings may be revisited. If you have any questions please contact me at 404/562-8539.

Sincerely,

A handwritten signature in cursive script that reads "Deborah A. Vaughn-Wright".
