RE: Confirmation Sampling Report, Quarters H, Tank H, Naval Air
Station Cecil Field, Florida.

Dear Mr. Ugolini:

I have completed the technical review of the Confirmation Sampling Report for Tank H, dated September 2000 (received October 4, 2000), prepared and submitted by Tetra Tech NUS. The work described in the report was adequately performed in accordance with the *Sampling and Analysis Plan for Site Assessment and Confirmatory Sampling at Various UST and AST Sites* (Tetra Tech, March 2000). FDEP concurs with the recommendation of no further action.

FDEP's concurrence is predicated on the information provided by the SOUTHNAVFACENGCOM. Therefore, any new information contradicting the basis for this concurrence may require further investigation or remedial actions.

If you have any concerns regarding this letter, please contact me at (850) 488-3693.

Sincerely,

David P. Grabka
Remedial Project Manager
