RE: January 2000 - July 2000 Groundwater Monitoring Report, North
Fuel Farm, Naval Air Station Cecil Field, Florida.

Dear Mr. Ugolini:

I have completed the technical review of the Semi-Annual Groundwater Monitoring Report for the North Fuel Farm for the period of January 2000 to July 2000, Naval Air Station Cecil Field, dated October 20, 2000 (received October 25, 2000), prepared and submitted Tetra Tech NUS, Inc. The document is suitable for its intent. I concur that the monitoring program can be discontinued until source removal activities have been completed. Further site assessment will be required to define the vertical and horizontal extent of groundwater contamination after the source removal is completed.

If you have any concerns regarding this letter, please contact me at (850) 488-3693.

Sincerely,

David P. Grabka
Remedial Project Manager
