>

> I have completed my technical review of the Quarterly Report (01/01/01 -  
> 03/31/01), South Fuel Farm, NAS Cecil Field dated May 21, 2001 (received  
> May 22, 2001). The report provides a summary of the operational  
efficiency

> of the remediation system.

>

> Field monitoring data for soil gas and groundwater are presented in  
> Appendix B. It would be helpful to the reviewer if some interpretation of  
> the data presented in Appendix B were provided in future submittals. I  
> recommend that a short summary be provided of the soil gas and groundwater  
> parameters that would indicate whether or not the system is continuing to  
> remove contamination or behave as expected.

>

> Please contact me if you have any questions or comments concerning this  
> review.

>
