Charleston Naval Complex
SCO 170 022 560

Dear Ms. Daniell:

The South Carolina Department of Health and Environmental Control (The Department) received the above referenced work plan on May 31, 2001. The Department reviewed the work plan according to applicable State and Federal Regulations and the Charleston Naval Complex Hazardous Waste Permit (the Permit), effective September 17, 1998. Based on this review, the Department has determined that it is technically adequate.

Upon completion of the fieldwork outlined in this work plan, an IM completion report should be submitted to summarize the results. If you have any questions regarding this issue, please contact Jamelle Ellis at (803) 896-4872.

Sincerely,
