Re: Soil Sampling Plan for AOC 559, Zone E

Dear Mr. Scaturo:

Enclosed please find four copies of the Soil Sampling Plan for AOC 559 in Zone E of the Charleston Naval Complex (CNC). The information obtained from this investigation will be used to confirm the extent of required soil excavation, if any, for benzo(a)pyrene equivalents (BEQs) in soil behind the former power plant (Building 32).

The principal author of this Sampling Plan is David Lane. Please contact him at 352/335-5877, extension 2320, if you have any questions or comments.

Sincerely,

CH2M HILL

Dean Williamson, P.E.
