**RFI REPORT ADDENDUM, SWMU 145, ZONE E**  
**Charleston Naval Complex**  
**North Charleston, South Carolina**  
**November 2001**

**GENERAL COMMENT**

1. This Addendum is well written and the recommendation of No Further Action is supported by the data.

**SPECIFIC COMMENTS**

1. **Page 2-1.** The text states surface and subsurface soil samples were collected during the RFI field investigation from the 0- to 1-foot and 3-5- foot intervals. Thus, it appears that the depth of 1- to 3 foot depth was not sampled. The failure to sample from this interval needs to be explained and addressed in the uncertainty section.
2. **Table 5-1.** The symbol "u" needs to be added to the footnotes and defined.
