RE: Conditional Approval
CH2M-Jones' Responses to Comments by SCDHEC on the Zone H RFI Report
Addendum – Phase II, Revision 0
Charleston Naval Complex (CNC)
SC0 170 022 560

Dear Ms. Daniell:

The Corrective Action Engineering and the Hydrogeology Sections of the South Carolina Department of Health and Environmental Control (Department) have completed the review of the above referenced document, which was received on April 25, 2002. This review was based upon applicable State and Federal Regulations, and the CNC Hazardous Waste Permit, effective September 17, 1998. The Department hereby approves the above referenced document on the condition that this document is revised in accordance with the attached responses. Please note that these responses were discussed with Mr. Sam Naik of CH2M-Jones on May 20, 2002.

This document addresses the investigation of SWMUs 17, 196, SWMU 136/AOC 663, AOC 666, and SWMU 138/AOC 667. The Department agrees with the No Further Action recommendation for SWMU 136/AOC 663 and AOC 666. Please note that this decision is based upon currently available data. Additional investigation may be necessary in the future should information become available warranting such action.

The Department understands that investigation/remediation will continue for SWMUs 17, 196, and SWMU 138/AOC 667. This additional work will be documented in separate RFI Report / IM submittals.

Thank you for your cooperation in this matter. If you have any questions or concerns, please contact Jerry Stamps at (803) 896-4285.

Sincerely,

David Scaturo, P.E., P.G., Manager
Corrective Action Engineering Section
Division of Waste Management
Bureau of Land and Waste Management

Attachment:

Memorandum from Paul Bergstrand, P.G. to Jerry Stamps dated June 20, 2002.
