RE: Comments
RFI Report Addendum dated October 2002
AOC 538 and 539, Zone E
Charleston Naval Complex, SC0 170 022 560

Dear Ms. Daniell:

The Corrective Action Engineering and Hydrogeology Sections of the South Carolina Department of Health and Environmental Control (Department) have completed the review of the above reference document (received October 9, 2002) according to applicable State and Federal Regulations, and the CNC Hazardous Waste Permit (Permit) effective May 22, 2002. Though the Department agrees that AOCs 538 and 539 are candidates for No Further Action (NFA), the Department is requesting some changes to the text prior to granting the NFA. Please see the attached comments form Susan Byrd.

If you have any questions or concerns, please contact Gil Rennhack at (803) 894-4192. Thank you for your cooperation.

Sincerely,

Jerry Stamps, Engineer Associate
Corrective Action Engineering Section
Bureau of Land and Waste Management
