Re: Scoping Document for the Draft RCRA Facility Investigation (RFI) Report for Zone J (Part One) of the Charleston Naval Complex, SCO 170 022 560, Revision 0, dated April 24, 2000, received April 25, 2000.

Dear Mr. Shepard:

The South Carolina Department of Health and Environmental Control (Department) has reviewed the above referenced document according to applicable State and Federal Regulations, and the Charleston Naval Complex Hazardous Waste Permit, effective September 17, 1999. The attached comments were generated based on this review.

The Department believes that the attached comments and the discussions held during the Zone J scoping meeting (dated May 17, 2000) will facilitate the path forward for the completion of the Zone J RFI work plans and/or reports. Also, the attached comments and the discussions provide technical issues that the Department believes should be adequately addressed to fulfill the RFI requirements for the Zone J.

The Navy should provide a written strategy detailing the future work and the time period to complete the Zone J RFI process within 30 calendar days (or within an agreed upon time period) of the receipt of this letter.

Should you have any questions regarding these comments, please contact me at (803) 896-4088 or Paul Bergstrand at (803) 896-4016.

Sincerely,

Mihir P. Mehta, Project Manager  
Corrective Action Engineering Section  
Bureau of Land & Waste Management
