Re: CNB – NS2
Site Identification # 17595
Groundwater Sampling request received 18 February 2003
Charleston County

Dear Mr. Magwood:

The Department has received your request to install additional sampling points at this location. Installation activities are approved for immediate implementation; a monitoring well installation permit is enclosed. Please note that all monitoring wells must be installed in accordance with South Carolina Well Standards and Regulations R. 61-71 dated April 2002.

Upon completion of site activities, please provide the Department with a report of findings no later than 30 May 2003.

Should you have any questions please contact me at (803) 898-3553 (office phone), (803) 898-2893(fax) or by e-mail bishopma@dhec.state.sc.us. Please reference Site ID # 17595 on all future correspondence.

Sincerely,

Michael A. Bishop, Hydrogeologist
Groundwater Quality Section
Bureau of Water

Approval is hereby granted to: Department of the Navy - CNB
Site ID#: 17595 (BLDG NS2)
County: Charleston

This approval is for the construction of one monitoring well in accordance with the construction plans and technical specifications submitted to the Department dated February 2003 and South Carolina Well Standards R.61-71 dated April 2002. The well(s) are to be constructed within the water table aquifer for the intended purpose of monitoring groundwater quality and/or water levels at the referenced facility. Approval is granted with the following conditions:

1. The monitoring wells are to be installed by a well driller certified by the State of South Carolina.
2. The name and address of facility/owner of the well(s); surveyed locations and elevations; drillers certification #, and date drilled; total well depth; screened interval; boring and/or geologists logs; and actual construction details for each well are to be submitted to within thirty days of completion of the last well(s) installed.
3. Each permanent well shall be labeled with an identification plate constructed of a durable material permanently secured to the well where it will be readily visible. The plate is to provide the monitoring well identification # or designation, company name and driller certification #, date of construction, total depth, casing depth, screened interval and static water level.
4. As per R.61-71.H (d) of the April 26, 2002 South Carolina Well Standards, please provide groundwater/soil quality analytical data, water levels and any associated field measurements from the well(s)/soil boring(s) to the Groundwater Quality Section in the Bureau of Water at SCDHEC within thirty (30) days of receipt from the laboratory.
5. Please provide a minimum of 48 hours notice to the SCDHEC **Trident** District EQC District Office at (843) 740-1590 prior to initiation of monitoring well installations and/or soil borings.
6. Well construction and sampling derived waste including but not limited to drill cuttings, drilling fluids, and development/purge water should be managed properly and in compliance with applicable requirements. If containerized, each vessel should be clearly labeled with regards to contents, source, and date of activity.
7. Wells shall be abandoned per R.61-71: South Carolina Well Standards - April 2002. Note that temporary wells shall be abandoned within 5 days.

This approval is pursuant to the provisions of Section 44-55-40 of the 1976 South Carolina Code of Laws and the Department of Health and Environmental Control Regulations R61-71.

Approved by:

Michael Bishop, Hydrogeologist
Groundwater Quality Section
Bureau of Water
