LETTER REGARDING REQUEST TO INSTALL MONITORING WELL ZONE G AREA 20 CNC
CHARLESTON SC
06/11/2002
CH2M HILL

June 11, 2002

Mr. Michael Bishop
South Carolina Department of Health and Environmental Control
Bureau Water
2600 Bull Street
Columbia, SC 29201

Subject: Request for the Installation of three Geoprobe sampling locations
Zone G; Area 20 / SCDHEC No: (01190)
Charleston Naval Complex, North Charleston, South Carolina

Michael:

On behalf of the U.S. Navy Southern Division Naval Facilities Engineering Command, CH2M-Jones requests a well installation permit for the installation of 3 Geoprobe groundwater sampling locations to be installed by CH2M-Jones subcontractor Prosonic.

The Geoprobe sampling locations will be advanced to a maximum depth of approximately 10 feet below land surface and sampled for VOCs and SVOCs. Groundwater samples will be collected from approximately 5 to 10 feet below land surface. The borings will not be completed as groundwater monitoring wells. The attached figure presents the locations of the 3 proposed Geoprobe borings. The boring abandonments will be performed in accordance with the South Carolina Well Standards and Regulations (R.61-71), including submittal of Water Well Record Form HDI (9-77).

CH2M-Jones' subcontractor has scheduled to complete this work late in the week of June 17, 2002 with the hope that enough information will be gained from the sampling effort in order to make a decision on the next approach to closing this site. If you have any questions, comments, or require additional information please do not hesitate to contact us.

Sincerely,

CH2M Jones, LLC.

Brian R. Crawford, REM
Engineer II
