Re: Finding of Suitability for Transfer (FOST)/ Environmental Baseline Survey for Transfer (EBST) Revision 1 for the Charleston Naval Complex, dated July, 2001.

Dear Ms. Daniell:

The South Carolina Department of Health and Environmental Control (SCDHEC) has reviewed the above referenced document according to applicable State and Federal Regulations, and the Charleston Naval Complex Hazardous Waste Permit, effective September 17, 1998. Based on this review, the Department conditionally approves both the EBST and the FOST provided the changes and clarifications agreed to at the July 23, 2001 comment resolution meeting regarding sites NH-21, M-1067, and M-3A are incorporated into the EBST and the FOST. Please be advised that any additional information found that could affect the technical adequacy of the FOST could result in further action by the Navy. Should you have any questions regarding these comments, please contact Keith Collinworth of my staff at (803) 896-8955.

Sincerely,

R. Lewis Shaw, P.E.
Deputy Commissioner
Environmental Quality Control
