Re: Release reported November 1, 1996
Rapid Assessment Report received May 23, 2001
Site 18, Building 123, Zone G- Charleston Naval Base
UST Permit # 16763, Release #1
Charleston County

Dear Mr. Magwood:

The Underground Storage Tank (UST) Program of the South Carolina Department of Health and Environmental Control (SCDHEC) has reviewed the referenced report.

Based upon geo-technical data in the report, the release from the underground storage tank does not require further site rehabilitation or present a significant threat to human health or the environment. If, however, any contamination becomes evident which could be attributed to this UST system, the Program may, under authority established in the South Carolina Underground Storage Tank Control Regulations R.61-92 Part 280.52/280.73, require site rehabilitation activities.

The decision for requiring no further assessment pertains only to the UST release reported on November 1, 1996 and is based solely on the information provided in the referenced report. The release from the above-ground storage tank (AST) and associated piping will be investigated by the Bureau of Water under Site ID #01093.

On all correspondence related to this site, please reference UST Permit #16763, Release #1. Should you have any questions feel free to call me at (803)898-4339 or 1-800-826-5435 (within SC).

Sincerely,

Joel P. Padgett, P.G., Hydrogeologist
State Lead and Field Services Section
Underground Storage Tank Program
