Re: Zone I, BLDG. NS200  
Site Identification # 17624  
Second Quarter 2001 Monitoring Report received 12 July 2001  
Charleston County

Dear Mr. Magwood:

The Department has reviewed the referenced assessment report. As submitted, the report documents current and historical efforts to monitor soil and groundwater for hydrocarbon contamination at the subject site.

Data presented in the report indicated levels of contaminants of concern in groundwater were below established MCL limits. However, based on the historical presence of free product at this site, the Department does not concur with the recommendation for No Further Action at this time. Samples should be collected during the fourth quarter 2001 to verify free product status. Once the results for the fourth quarter are received the Department will reevaluate your request for No Further Action status.

Results for the fourth quarter 2001 monitoring event should be received by the Department no later than 14 December 2001. Should you have any questions, please contact me at 803-898-3553 (office phone), 803-898-3795 (fax) or [bishopma@columb32.dhec.state.sc.us](mailto:bishopma@columb32.dhec.state.sc.us).

Sincerely,

Michael Bishop, Hydrogeologist  
Groundwater Quality Section  
Bureau of Water
