RE: Zone H, Site 4-Building 640
Charleston Naval Complex
Site Identification # 00955
Second Round 2001 Monitoring Report received 27 March 2002
Charleston County

Dear Mr. Magwood:

The Department has completed technical review of the referenced document. Interpretation of the analytical data provided in the referenced report indicates that chemicals of concern remain below established Risk-Based Screening Levels and MCLs. The Department concurs with the conclusions as presented in the report and routine groundwater monitoring and reporting should continue as prescribed in the Corrective Action Plan dated December 2000. The Department retains the right to require additional verification wells at the conclusion of corrective action activities to ensure cleanup consistency.

Should you have any questions, please contact me at 803-898-3553 (office phone), 803-898-3795 (fax) or bishopma@dhec.state.sc.us.

Sincerely,

Michael Bishop, Hydrogeologist
Groundwater Quality Section
