Code 106, Building 76, 1351 First Street
Charleston, SC 29408-2020

RE: S.N. 106.21/0789
Charleston Naval Shipyard
Charleston, SC (01/16/96)

Dear Mr. Laney:

This office hereby grants approval for your company to transport non-hazardous waste at the Southeastern Soil Recovery incinerator in Dorchester County. One the contaminated soils have been treated and recovered as clean soils, they will be utilized in hot asphalt mix. As per the letter dated November 27, 1995, the waste is described as approximately 9 tons of non-hazardous well drilling cuttings from investigative drilling activities at the Charleston Naval Shipyard.

The following restrictions apply to the Southeastern Soil Recovery facility:

1. Prior approval must be obtained from the appropriate facility officials.
2. The District Solid Waste Consultant must be notified of your intent to dispose.
3. Precautions must be taken to prevent spillage or leakage during transport.
4. Weekend or holiday disposals are prohibited without prior notification of the appropriate district representative.
5. The waste stream must be compatible with the facility and not adversely affect the safe and efficient operation of the unit.
6. All State and Federal Air Quality Regulations which are applicable to the facility and its operations, must be strictly complied with.
