RE: Carswell Air Force Base,
Texas Natural Resource Conservation Commission Hazardous
Waste Permit No. HW50289,
Solid Waste Registration No. 65004,
EPA ID NO. TX0571924042,
Designation of Solid Waste Management Units and Areas of
Concern for Investigation and/or Corrective Measures

Determination of a Need for an RFI and Current Condition Report

Dear Mr. Long:

The TNRCC has recently completed its review of the 68 RCRA Solid Waste Management Units (SWMU) and 15 Areas of Concern (AOC) identified to date on Naval Air Station Fort Worth, also known as Carswell Air Force Base. Our review included the RCRA Facility Assessment (RFA) conducted in 1989; Hazardous Waste Permit No. 50289 issued in 1991; TNRCC's letter dated April 22, 1994; and the decisions resulting from the TNRCC's inspections of June 15, 1994, July 29, 1994, and February 13, 1995. Part V. I. of the permit allows the TNRCC to require investigation of units where a release may have occurred. Also, 30 Texas Administrative Code (TAC) §305.62 (d) states that "If good cause exists, the executive director may initiate and the Commission may order an amendment to a permit and the executive director may request an updated application if necessary".

Based on the above mentioned documents and inspections, the TNRCC has determined that a total of 50 SWMU's and 14 AOC's require investigations and/or corrective measures. The 18 remaining SWMU's and one AOC are designated for No Further Action (NFA) at this time. The NFA designation will remain so long as there is no further evidence of a release to the environment from these units.

The TNRCC looks forward to assisting the Air Force and Navy in developing the scope of work necessary to economically and adequately characterize releases to the environment. If you have any questions or need further assistance with this matter, please contact Mr. Geoffrey Meyer in my section at (512) 239-2577.

Sincerely,

Paul Lewis, Manager
