Re: Final Site Characterization Report for the Recreational Vehicle Family Camping and Fuel Pipeline Areas, NAS Fort Worth JRB- Carswell Field, Fort Worth (Tarrant County), Texas (Facility ID No. 009696)

Dear Mr. Rice:

We have received and reviewed the Final Site Characterization (SC) Report for the Vehicle Family Camping and Fuel Pipeline Areas (June 1998) for NAS Fort Worth JRB (formerly Carswell AFB). The reports are being utilized by the Air Force/U.S. Navy to categorize property as uncontaminated under the PST Chapter 334 regulations for eventual transfer and future use.

It is noted that all Texas Natural Resource Conservation Commission (TNRCC) conclusions reached in these reports (workplan, draft and final version) have been based upon analytical laboratory data from Inchoape Testing Service (ITS). Due to current concerns with the validity of data from ITS, prior to consideration of your No Further Action recommendation, we request reprocessing of the data from ITS. We suggest you contact ITS about the reprocessing process they plan to implement to offset the concerns raised with validation of data from 1994 through January 1998.

We appreciate reviewing this regulatory document. Should you have any questions concerning our conclusions or wish to discuss this matter further, please contact me at 512/239-2186.

Sincerely,

A handwritten signature in black ink, appearing to read "Antonio Peña".

Antonio Peña, P.E.
Federal Facilities Coordinator
