Brooks Air Force Base, Texas—73235—

Re: Release Determination Activities at the Naval Air Station Fort Worth Joint Reserve Base,
Building 1518, NAS Fort Worth JRB (Tarrant County), Texas (Facility ID No. 0009696)

Dear Mr. Dunkle:

We have completed our review of the investigation and release determination activities conducted at the above-referenced facility as provided in the reports submitted to our Office. Based upon the information submitted to us, we concur with the conclusion of your Corrective Action Specialist or Licensed On-Site Supervisor that there does not appear to have been a release at this site in excess of action levels. The tank system removed appears to be completely separate from the system associated with LPST ID No. 104524, and is not listed as a leaking petroleum storage tank site. With the provision that the submitted information is correct and representative of actual site conditions, as attested to by your Corrective Action Specialist or Licensed On-Site Supervisor, no further action regarding the release determination is required. Please note that there may be additional requirements regarding any existing underground or aboveground storage tanks at this site, including tank registration and technical standards provisions.

Should you have any questions, please contact Ms. Susan Rainey of my staff at 512/239-2200. Your cooperation in this matter has been appreciated.

Sincerely,

A handwritten signature in cursive script that reads "Susan Rainey".
