Re: Carswell Air Force Base
TNRCC Solid Waste Registration No. 65004
Hazardous Waste Permit No. HW-50289
Review of Laboratory Report Addressing 0,0,0-Tetra Ethyl Phosphorothioate

Dear Mr. Vazquez:

The Texas Natural Resource Conservation Commission (TNRCC) has completed the review of the laboratory report addressing the presence of 0,0,0-Tetra Ethyl Phosphorothioate (Triple-0) in soil and groundwater samples at Carswell AFB submitted by letter dated May 18, 2000 and received by the TNRCC on May 18, 2000. The laboratory report was submitted for the purpose of documenting that detections of Triple-0 in soil and groundwater were false positives. Ms. Ann Strahl of the TNRCC Remediation Division's Technical Support Section reviewed the laboratory report. Based upon our review, the TNRCC concurs that Triple-0 was not detected in either soil or groundwater at Solid Waste Management Units (SWMUs) 22, 23, 24 and 25. Therefore, Triple-0 can be eliminated as a contaminant of concern associated with the investigation SWMUs 22, 23, 24 and 25.

Questions concerning this letter should be directed to me at (512) 239-2360 or via e-mail: mweegar@tnrcc.state.tx.us, Mail Code MC-127.

Sincerely,

A handwritten signature in cursive script that reads "Mark A. Weegar".

Mark A. Weegar, Project Manager
